

BADIA HAND TO SHOULDER CENTER | FACT SHEET

Badia Hand to Shoulder is a fully integrated facility delivering comprehensive care for the upper limb, seamlessly integrating the **Surgery Center at Doral**, specialized rehabilitation services, and advanced on-site MRI imaging.

Alejandro Badia, MD, FACS, is a hand and upper extremity surgeon and founder of the Badia Hand to Shoulder Center. He is a member of multiple national and international orthopedic, hand and sports medicine societies. Dr. Badia studied physiology at Cornell, earned his MD at NYU, and completed orthopedic training there, followed by hand and trauma fellowships in Pittsburgh and Germany. He leads an international fellowship, served on two journal editorial boards, and previously organized an annual Miami conference on upper limb arthroscopy and arthroplasty.

Introducing Dr Peterson

Dr. Badia is excited to welcome his new partner, orthopedic surgeon Dr. Joel Peterson. Fellowship-trained in shoulder & elbow surgery at the Hospital for Special Surgery and residency-trained at Columbia University, Dr. Peterson brings top-tier expertise to our team. Together, they've launched the [Miami Shoulder Institute](#), advancing care for shoulder conditions in South Florida and beyond.
